Application
from 1st March until 15th July 2019

We welcome students, PhDs, PostDocs from every faculty and discipline and anyone interested in founding a life science startup.

If you are passionate about starting your own business and willing to spend eight intensive weeks continuously working on your project, you are the perfect candidate.

You can apply with or without an idea of your own and with or without a team.

Apply until 15th July!

Do I have to pay for the program?

Taking part in the MedTech Startup School is free of charge. However, as places are limited a 250 € deposit is required once you are accepted to the program. You will get your deposit back after October 7th, 2019 if you took part in at least 80 % of all classes.

What does the MedTech Startup School offer beyond the classes?

You can look forward to our innovation lab equipped with 3D printer, 3D scanner, VR glasses and workbench. Besides, you can use our comfortable and modern coworking space at all times. Here, it is easy to socialize with mentors, investors and industry professionals. A variety of events will give you the chance to make lots of contacts and share your experience.
