

Over 400 profiles – new map of the STERN BioRegion encourages collaboration

STERN BioRegion on a growth trajectory

(Stuttgart) – The new map from BioRegio STERN Management GmbH offers an up-to-date overview of companies, institutes and service providers in the life sciences sector. It includes over 400 profiles spread across the categories of biotech, medtech and engineering. The digital health/IT sector is also represented for the first time.

For more than 20 years, BioRegio STERN Management GmbH has been successfully promoting economic development in the life sciences sector in the Stuttgart and Neckar-Alb regions. Its new map provides an overview of companies and institutes from the biotechnology, medical technology and engineering sectors, with digital health/IT now incorporated for the first time, too. The map is also available online and enables digital access to an interactive company database. Users can make direct contact with cooperation partners, employers, suppliers and service providers on the basis of detailed company profiles. “With over 400 profiles, there are numerous collaboration options to discover. We are delighted that the number has increased significantly in recent years, especially in the engineering category. This map offers impressive proof that the STERN BioRegion is on a growth trajectory,” says the company’s Managing Director, Dr. Klaus Eichenberg.

The map is free and available to order now from BioRegio STERN Management GmbH by phone on +49 711-870 354-0 or by e-mail at info@bioregio-stern.de.

About BioRegio STERN Management GmbH:

BioRegio STERN Management GmbH promotes economic development in the life sciences industry, helping to strengthen the region as a business location by supporting innovations and start-up companies in the public interest. It is the main point of contact for company founders and entrepreneurs in the Stuttgart and Neckar-Alb regions, including the cities of Tübingen and Reutlingen.

The STERN BioRegion is one of the largest and most successful bioregions in Germany. Its unique selling points include a mix of biotech and medtech companies that is outstanding in Germany and regional clusters in the fields of automation technology and mechanical engineering.
